

Notice with regard to my internship report:

In the last days of August 2015 we suddenly found out that I have made a programming error in 4 of the 7 tests that I did on reducing the Bare Soil Evaporation in ORCHIDEE.

Type	Reference	Number
Resistance terms	Best et al, 2011	1
	Sellers et al, 1992	2
Using relative humidity	SiSPAT: Braud et al, 1995	3
Rootsink activation	Original ORCHIDEE	-
	Best et al, 2011	4
	Sellers et al, 1992	5
	SiSPAT: Braud et al, 1995	6
		7

Afterwards, I redid the same tests. However, there was no revised version of the report. So, while reading my internship report, one should have in mind that tables 4-3 and 4-4 are wrong.

The corrected tables are brought below:
